

King Arthur's Community School

What really matters in education?

Respect

Pride

Courage

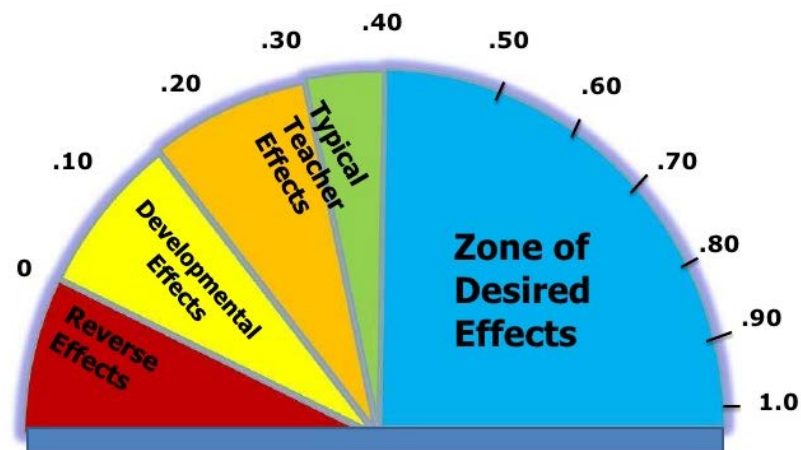

**At our recent open meeting on Tuesday
13th March 2018 we discussed with
parents some perceptions about what
approaches work in education alongside
what really matters.**

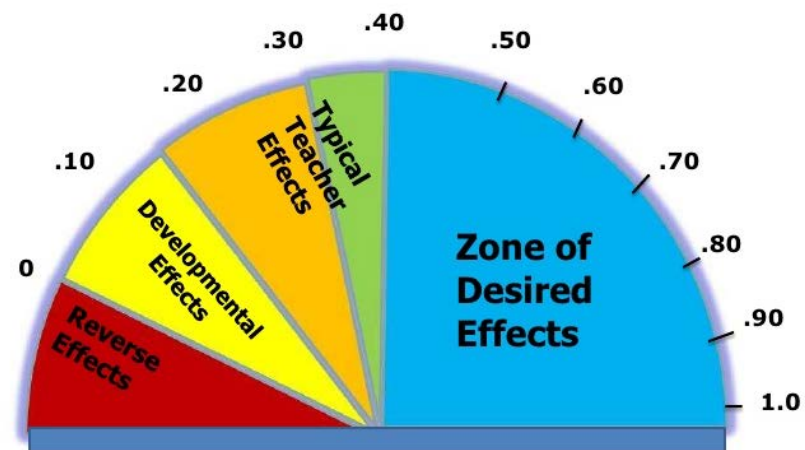

**This presentation summarises the work of
Professor John Hattie in making sense of
different educational approaches.**

An Effect Size or ES of more than 0.4 is the equivalent of an average yearly gain in learning.

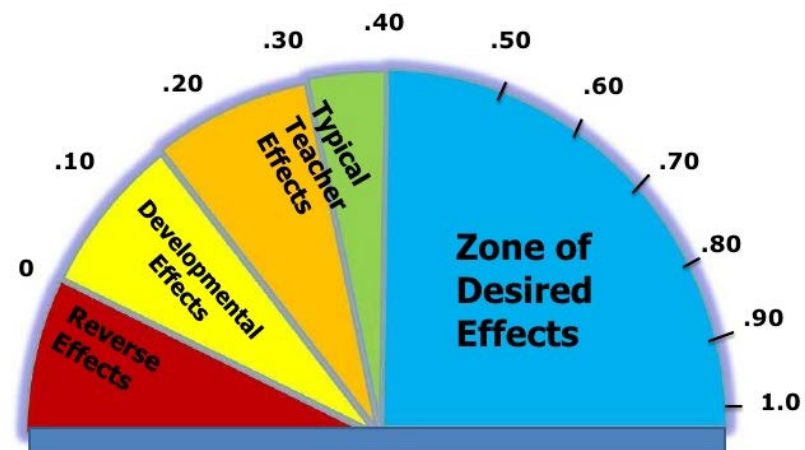

What do parents think are important influences on academic achievement?

What do parents think makes a difference?

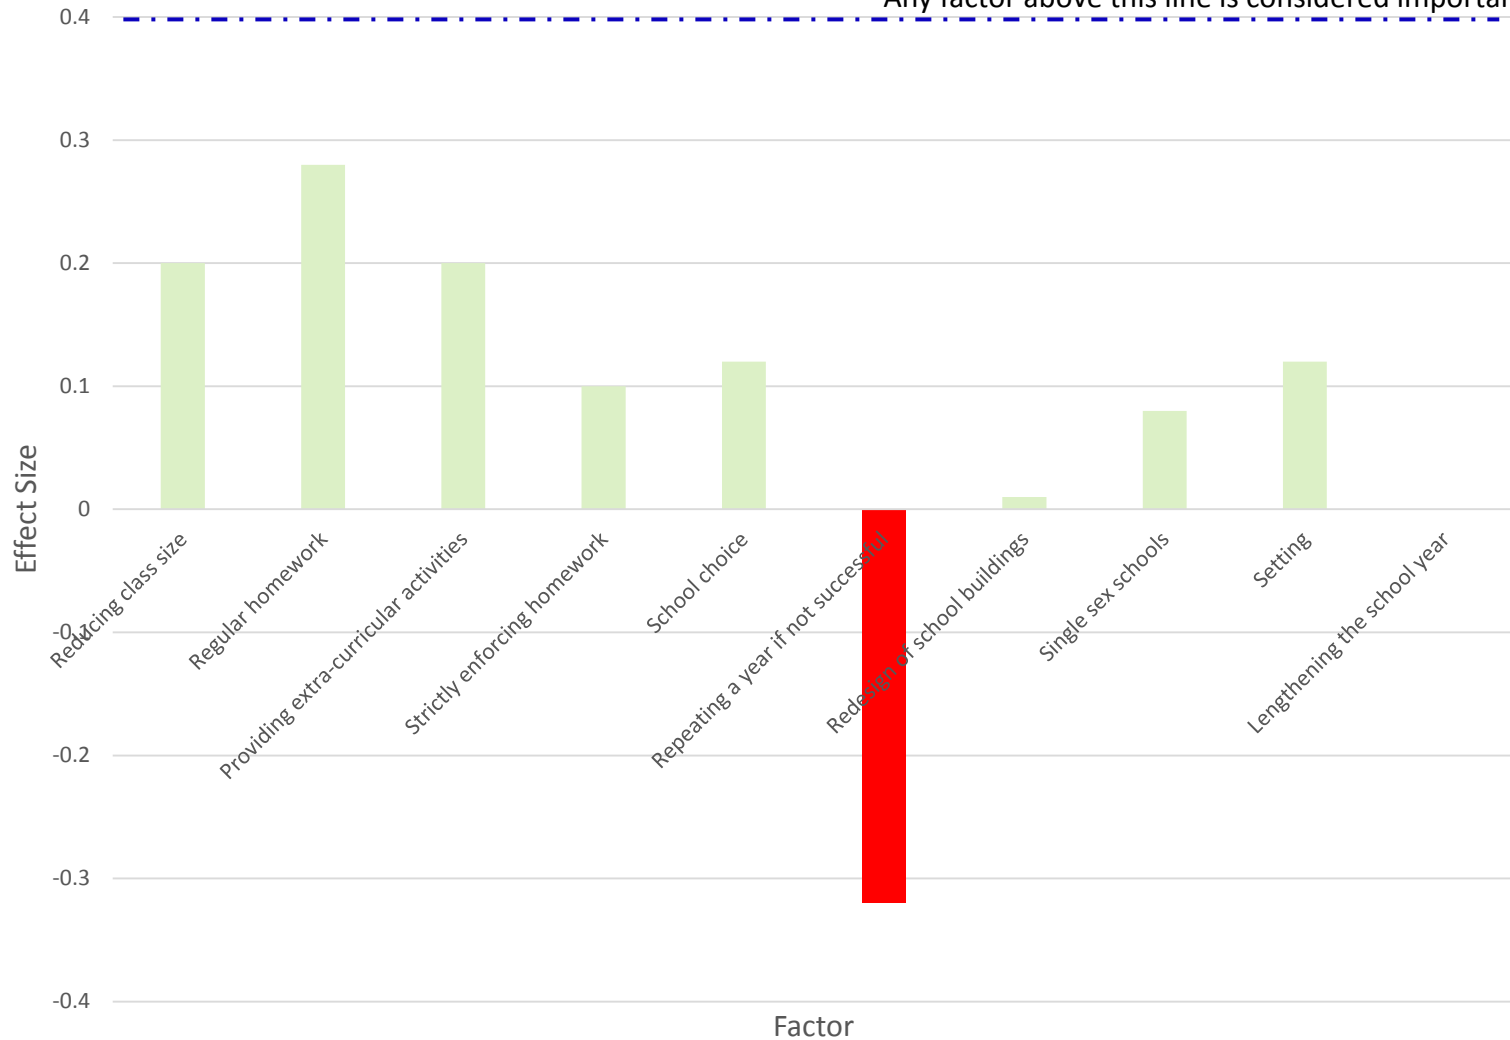

What is the Effect Size of those factors?

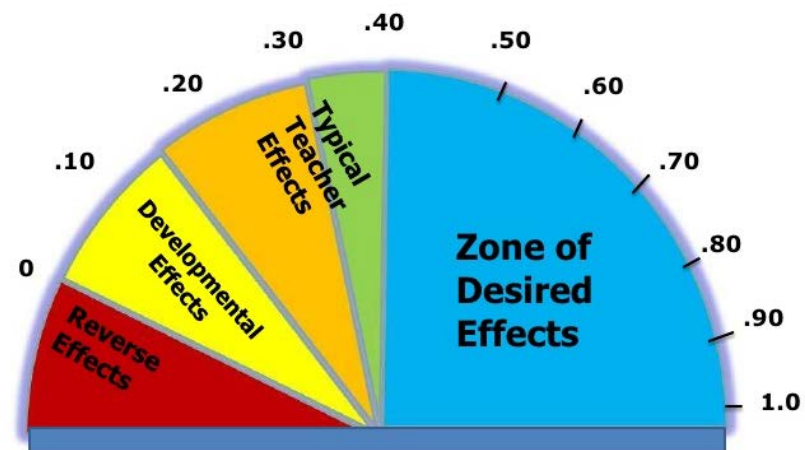

What is the Effect Size of those factors?

Any factor above this line is considered important

What really matters in education?

What is the 'Effect Size' of those factors that really matter in education?
